Step 4: Navigate to "Load Data", select the sample Excel file from the /data folder, and click "Submit".

Step 6: Navigate to "Dashboards" -> "Employee Analytics Dashboard" to view the visual reports.

Step 5: Known Issues / Limitations

S.No	Known Issue / Limitation	Workaround / Status
1	Cannot map unsupported date formats directly from Excel.	Ensure Excel dates are formatted as YYYY-MM-DD before uploading.
2	Standard users cannot view dashboard by default.	Enabled Admin Overrides on pa_dashboards ACL.
3	Transform processing can slow down with > 50,000 rows.	Break large spreadsheets into smaller batches.
