Customer Problem Statements

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1 (Focus: Data Integrity)	an HR Data Administrator	bulk import and update employee records from an Excel spreadsheet into ServiceNow	it often creates duplicate entries for the exact same employee	the standard manual upload process doesn't automatically identify and merge existing records using a unique identifier (like Employee ID)	frustrated and worried corrupting the database with messy data.
PS-2 (Focus: Analytics & Dashboards)	an HR Manager	get a clear, real-time overview of our employee distribution by department and location	I have to dig through massive list views or export data back to Excel to make sense of it	there are no centralized, visual reports or dashboards configured for our custom employee data	overwhelmed and inefficient when leadership asks for quick headcount metrics.
