Project Name	Import Data using Transform Maps (Spreadsheet)
Maximum Marks	4 Marks

Customer Journey Map

Map out the customer's experience stage-by-stage, capturing their actions, touchpoints, thoughts, and feelings, along with process ownership and improvement opportunities at each stage.

Phase of Journey	Stage 1: Prepare & Upload	Stage 2: Transform & Validate	Stage 3: Analyze
Actions <i>What does the customer do?</i>	• Prepares the Excel file • Navigates to Load Data, uploads Excel	• Configures Transform Map, Maps Fields • Clicks Transform and checks history	• Opens custom Dashboard to view reports
Touchpoint <i>What part of the service do they interact with?</i>	• Excel File • ServiceNow Load Data UI	• Mapping Assist Tool • Transform History Logs	• Dashboard Pie/Bar charts
Customer Thought <i>What is the customer thinking?</i>	• Help me organize this data easily • Help me stage data without breaking system	• Help me map data to avoid duplicates • Help me confirm data was saved correctly	• Help me provide actionable insights
Customer Feeling <i>What is the customer feeling?</i>	• Positive: Having all data consolidated • Negative: Information overload on Load Data screen	• Positive: Coalesce identifies existing records • Negative: Worrying about incorrect mapping	• Positive: Seeing real-time charts populated • Negative: Dealing with ACL permissions

Process Ownership <i>Who is in the lead on this?</i>	System Admin / HR Admin	System Admin	HR Manager
Opportunities <i>How can we improve this stage?</i>	• Provide Excel template • Automate staging table naming	• Highlight Coalesce button clearly • Direct link to Target Table	• Pre-configure ACL Admin Overrides
